

Understanding and managing your mobile data

Learn about mobile data and how to manage your usage in the Customer Centre.

What is mobile data?

This type of data enables you to access the Internet on your mobile device and perform actions without the need to connect to a Wi-Fi network. Data usage is measured in megabytes (MB) and gigabytes (GB).

You can check your plan's usage limit from the **Customer Centre** on your computer or on your mobile phone.

How can I monitor my mobile data usage in the Customer Centre?

- 1 Go to **www.videotron.com/connexion** or scan this QR code to go there directly:

- 2 Log in using your **ID**, and your **password** and click **Sign in**.
- 3 Select the **View your Mobile data usage** tab.

For more information on your mobile data usage, direct the camera towards the QR code.
